

TECHNICAL EVALUATION COMMITTEE, PHC BANNU BENCH

To

The Additional Registrar,  
Peshawar High Court Bannu Bench.  
(Chairman Procurement Committee)

Subject: TECHNICAL EVALUATION

Sir,

Reference to meeting of technical committee dated 15.09.2020 & 25.09.2020, report of technical evaluation committee, showing the analysis for the marks awarded to each firm, is as under:

**Parameter, "compliance to purchaser specification" at serial No. 1.**

1. Al-Mayar Traders technical bid was rejected as the firm offered china made diesel generator, which is not acceptable as per the bidding documents.
2. For both the remaining bidders Le Moon & Co. and MKJ Associates, the provided technical specifications was compared with the purchaser's specification and the following points were noted for consideration.
  - Optimum integration facility in the proposed generator for interfacing different power sourcing either AC or DC with controlling and monitoring functions were not found.
  - They offered the engine and alternator of the proposed generator from different origin which clarifies that the item not fully assembled from the same origin/country. Keeping in notice that each country has its own standard.
  - Both the bidders have offered generators with power factor values of 0.8 brushless, whereas, the required power factor should be more than 0.9.

- MKJ Associates offered governor of the generator mechanical whereas the required governor should be at least electronic. Moon and company offered no detail about the governor section.
- Only moon & company has not mentioned the built in fuel tank with capacity at the rate liter per hour for minimum 08 Eight hours continuous working.
- Both the bidders, Moon & Company and MKJ Associates were unable to offer free after sale warranty, for atleast three years.
- MKJ Associates gave the oil consumption rating at 110% load i.e 36 liters per hour. Whereas, Moon & Co. at 100% load 34 liter per hour initially for operating 150 KVA load with power factor 0.8, which was found to be costly. This means that the efficiency of generator will 80 percent and will become decreased later on.

S.No	FEATURES	MKJ ASSOCIATES	MOON & CO.
1	Optimum integration	No	No
2	Components of origin	No	No
3	Power Factor	No	No
4	Governor(Electronic)	No	No
5	Fuel Tank capacity	Yes	No
6	Free After sale service	No	No
7	Special Features	No	No
8	Water Cooling system	Yes	No
9	origin	No (Dual origin)	Yes
10	Efficiency level	Low	Low

The committee, after technically examining the bids according to purchaser's specifications, concluded that the minor deviation of the

offered products is more than 10%, therefore, they could not get any score out of 20 marks in parameters at serial No. 1

**Parameter, "Special Features" at serial No. 2.**

No special features were offered by any firm. Therefore, no firm could get any score.

**Parameter, "Product Certificate" at serial No. 3.**

The required certificates (CEMDD & JIS) were not found with any of the firms.

**Parameter, "Performance Specifications/Certificates" at serial No. 4.**

- i. None of the firms were found registered with ICC/Globally recognized certification bodies.
- ii. Only MKJ Associates has submitted ISO certificate. But no name of the firm has been found in the certificate therefore, it needs to verify. Whereas, Moon & Co has not provided any certificate.

**Parameter, "Product Local Performance" at serial No. 5.**

No satisfactory performance certificate has been provided by any of the bidder firm.

**Parameter, "Legal Requirements" at serial No. 6.**

- i. No firm has submitted Manufacture Authorization Certificate or partnership deed with manufacturer.
- ii. Only MKJ Associates was found registered with Sales Tax FBR Islamabad.
- iii. Only MKJ Associates has furnished PEC Generator code ME03 registration certificate.
- iv. Both the firms were found registered with income Tax FBR Islamabad.
- v. Only MKJ Associates has submitted financially audited Annual statements.
- vi.

**Parameter, "Technical Staff" at serial No. 7.**

All the required technical staff was found with both the firms. Only Moon & Co. lacks staff with Msc/PhD qualification/foreign training.

**Parameter, "Networking and Training" at serial No. 8.**

Found with both the firms

**Parameter, "Testing & calibration Equipments" at serial No. 9.**

Both the competing firms have shown in their technical bids lists of testing & Calibration equipments.

**Parameter, "Warranty Period Extension" at serial No. 10.**

No bidder has offered any extension of warranty period free of cost.

**Parameter, "Post Warranty Maintenance Service" at serial No. 11.**

Both the bidders i.e Moon & Co. and MKJ Associates have offered post warranty maintenance contracts. However, the rates of Moon & Co. are comparatively lower than MKJ Associates.

**Parameter, "Financial Status" at serial No. 12.**

Income tax returns for the last year are furnished by both the firms. Whereas, sales tax returns have been furnished by MKJ Associates only.

**Parameter, "Market Experience in quoted items" at serial No. 13.**

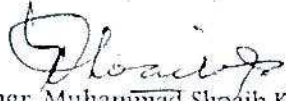

Moon & Co. has not supplied any similar good upto 50% comparable scale, and has supplied goods for last two years. Whereas, MKJ Associates has supplied similar goods and has also made supplies of different items for last three years.

**Parameter, "Past Performance (Last One Year)" at serial No. 14.**

Moon & Co. has supplied goods to 01 institution on small scale, whereas, MKJ Associates has supplied heavy duty goods to 02 institutions.

Keeping in view the above analysis, technical bids of the firms named as above were evaluated. The Marks sheet along with this technical report is submitted to the Chairman of Procurement committee Peshawar High Court Bannu Bench for further process please.
